### Bennett Mechanical Comprehension Test Form S Answers

The correct answer is B. Because the box is nearer to Man 'B', he will be carrying a heavier load than Man 'A'. In this question, the mechanical principle relates to weight distribution based on the positioning of the load in relation to the supporting factors (in this case the two men). It is not a complex question relating to sophisticated concepts in physics, but it does put the individual's understanding of basic principles to the test.
