follow. In chapter 1, the task is to move an attacked piece. In each puzzle, there is only one good solution by moving the attacked piece to a safe square. In chapter 2, one of the kings is in check. The goal is to find the correct response. In chapter 3, a piece is attacked, but has no good square to which to move. So, rather than moving the attacked piece(s), you will need to look for a way to protect it with another piece. In chapter 4, we focus on defensive ideas against a direct checkmate threat. In chapter 5, one side “defends” by counter-attacking. In chapters 6 and 7, you will be introduced to the game-saving techniques of drawing by stalemate or perpetual check. In chapter 8, the task is to catch a pawn that is about to promote. In chapter 9, a certain piece is about to get “trapped.” The task is to prepare for the attack and avoid
