with a rogue wizard and his crew. But like my Uncle Ed always said, wish in one hand and... well, you get the picture. As it turns out, being the area's supernatural sheriff isn't all it's cracked up to be. Sure, I get paid when I handle a problem for one of the factions--no complaints there. The problem is, it's been nothing but putting out fires for the fae and the other major players since I got stuck with this gig. Like it or not, I'm working a job that concerns both the fae and the vamps, chasing down a supernatural terror like none I've ever seen. And hell if a wannabe monster hunter didn't get himself snatched by the very same creature that's been dropping bodies all over Austin. Now I have to find the kid, save the fae and the local vampire coven from exposure, salvage my relationship with my girlfriend, and figure out what to do with my live-in ex who may or may not have a magically-induced mental illness. Wrong. The need to feed becomes irresistible, family get dragged into my mess, and then a new set of problems present themselves that test me to my limits, and beyond. I gotta admit, I'm this close to just jacking it all in and letting this infection win. At least then there will be peace. No pain. No hurt. No disappointment. agreed to take up his sword one last time... but will this "one final job" be the death of him? BLOOD SCENTA Junkyard Druid Urban Fantasy Novella, #1 Colin's life has finally regained some semblance of normalcy after the death of his girlfriend, Jesse. He no longer hunts supernatural creatures. He has a job working in his uncle's salvage yard that he enjoys. He's even planning to start college in the fall. And, he lives inside six acres of scrap iron, steel, and magical wards that keep the fae and other denizens of Austin's paranormal underworld far, far away from him. Which is just how he likes it. So when he runs across a rogue vampire on the hunt, his first instinct is to report it to the local coven leader and then mind his own business. But Colin just can't stand aside and watch as innocent people are slaughtered. Which is why he'll take up his sword one last time, for one final job. But with witches,

This collection of geographical treatments of such a complex set of processes unearths the contradictions in the impacts of globalization on peoples' lives. Globalizations Contradictions firstly introduces globalization in all its intricacy and contrariness, followed on by substantive coverage of globalization's dimensions. Other areas that are covered in depth are: globalization's macro-economic faces globalization's unruly spaces globalization's geo-political faces ecological globalization globalization's cultural challenges globalization from below fair globalization.
