Language, this book argues, is political from top to bottom, whether considered at the level of an individual speaker's choice of language or style of discourse with others (where interpersonal politics are performed), or at the level of political rhetoric, or indeed all the way up to the formation of national languages. By bringing together this set of topics and highlighting how they are interrelated, the book will function well as a textbook on any applied or sociolinguistic course in which some or all of these various aspects of the politics of language are covered.

From the #1 internationally bestselling author of Five Days and The Blue Hour comes an unforgettable novel about a woman who seemingly has it all, until the man she trusted the most threatens to take it all away. About an hour after I met Tony Hobbs, he saved my life. Thirty-seven-year-old American journalist Sally Goodchild quite literally married her hero. Both foreign correspondents, both on assignment in Cairo, they quickly fell in love and settled into domestic life in London. From the outset, Sally's relationship with both Tony and his hometown was an uneasy one—as she found both to be far more unfamiliar than imagined. But her adjustment problems are soon overshadowed by a troubled pregnancy. When she goes into premature labor, there are doubts whether her child will survive unscathed. And then, out of nowhere, Sally is hit by an appalling postpartum depression—a descent into a temporary, but very personal hell, which even sees her articulating a homicidal thought against her baby. However, when she does manage to extricate herself from this desperate state, she finds herself in a fresh new nightmare, as she discovers that the man she thought knew her better than anyone—loved her more than anyone—now considers her an unfit mother and wants to bar her from ever seeing her child again.

Teaches Korean grammar, terms, and expressions to use in common and emergency situations, and provides a bilingual dictionary of common words.
