processes related to the respiratory system in your studies. First, this article will cover a list of word roots, and a few additional suffixes and prefixes specifically related to the respiratory system.

## ~~Medical Terminology of the Respiratory System – Nursecepts~~

Pronunciation of Terminology What is the Respiratory System? The respiratory system is an integrated arrangement of organs and structures which functions to extract oxygen from the atmosphere into the bloodstream and expel carbon dioxide, a waste product of metabolism, from the bloodstream into the atmosphere. It consists of the respiratory tract, the muscles used for breathing and the part of the brain that controls breathing.
