In this remarkable sequel to his *Films of the Seventies: A Social History*, William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon, and generate discussion about major

Online Library

Rocky Iv

events, issues, and social trends of the eighties.

Palmer defines the dialectic between film art and social history, taking as his theoretical model the "holograph of history" that originated from the New Historicist theories of Hayden White and Dominick LaCapra. Combining the interests and methodologies of social

Online Library

Rocky Iv

history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties, such issues included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in

Soviet-American relations, neoconservative feminism, and yuppies. Among the films Palmer examines are Platoon, The Killing Fields, The River, Out of Africa, Little Drummer Girl, Kiss of the Spiderwoman, Silkwood, The Day After, Red Dawn, Moscow on the Hudson, Troop Beverly Hills, and Fatal

Attraction. Utilizing the principles of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

This book brings together for the first time many of the leading writers and thinkers from the psychological and mental health fields.

Online Library

Rocky Iv

Contributes include Robert Jay Lifton, Joanna Macy, Roger Walsh and others.

The main point of this book is that biased perceptions of international relations are anchored in a nation's collectively held patriotic self-image, and that these biased international perceptions serve to

Online Library

Rocky Iv

bolster and perpetuate the patriotic beliefs upon which they are based.

This book explores the cognitive structures and processes through which this occurs. Theories and methods from the fields of social and cognitive psychology, cultural anthropology and communication studies are combined to create a useful framework for the

Online Library

Rocky Iv

analysis of international perceptions. This framework is then applied to American beliefs and perceptions in the post-World War II era. Hirshberg claims that an American patriotic schema has been a long-standing, stable and pervasive fundamental belief system in American culture, and a cold war schema extended the

Online Library

Rocky Iv

patriotic schema into world affairs after World War II. He argues that the American patriotic schema is tied in an interactive fashion with ongoing perceptions of international relations. Ultimately, stable, patriotic public perceptions of national greatness and governmental legitimacy function to ensure a

Rocky Iv

supportive and acquiescent public. This helps secure America's impressive level of political stability. This book will be of broad interest to those political scientists and psychologists who occupy the general field of political psychology.

they learn from books, newspapers, and films about life in America? How do we, as Americans form opinions about life in the U.S.S.R? Through the selective use of both Soviet and American materials, *The Other Side* explores these and other provocative questions that are central to public understanding of how
