immediately identified with this man who narrated his adventures in such a spontaneous manner... To tell you the truth, the more I read, the more I was in love with the boy my father had been..." --Aleida Guevara "Our film is about a young man, Che, falling in love with a continent and finding his place in it." --Walter Salles, director of "The Motorcycle Diaries." "As his journey progresses, Guevara's voice seems to deepen, to darken, colored by what he witnesses in his travels. He is still poetic, but now he comments on what he sees, though still poetically, with a new awareness of the social and political ramifications of what's going on around him."--January Magazine Also available in Spanish: DIARIOS DE MOTOCICLETA (978-1-920888-11-4) Features of this edition include: A preface by Che Guevara's daughter Aleida Introduction by Cintio Vintier, well-known Latin American poet Photos & maps from the original journey Postscript: Che's personal reflections on his formative years: "A child of my environment." Publisher Description

In January 1952, two young men from Buenos Aires set out to explore South America on an ancient Norton motorbike. The journey lasted six months and took them thousands of miles, all the way from Argentina to Venezuela. En route, there was disasters and discoveries, high drama, low comedy, fights, parties and a lot of serious drinking. They met an extraordinary range of people: native indians and copper miners, lepers, police, wanderers and tourists. They became stowaways, firemen and football coaches, and joined in a strike. They sometimes fell in love, and frequently fell off the motorbike. Both of them kept diaries. One of them was a tall and good-looking medical student called Ernest Guevara de la Serna. Using the standard Argentinean nickname, others would sometimes refer to the two

companions as Big Che and Little Che. In Ernesto's case, the nickname stuck. Within a decade the whole world would know Che Guevara. This is the story of that remarkable journey, eight years before the Cuban Revolution, in Che's own words, and illustrated with contemporary photographs. For Che, it was a formative experience, and amidst the humour and pathos of the tale, there are examples of his idealism and his solidarity with the poor and the oppressed. But it is far from being the diary of a militant, and sometimes very far from being “political correct,” which may be the reason that the manuscript has only been made available now, a quarter century after Che's death in the Bolivian jungle. Instead, it is a record kept by an exuberant, intelligent and observant 23-year-old, describing what might have been the adventure of a lifetime—had his lifetime not turned into a much greater adventure.

Published for the first time in the U.S. - one of the two diaries on which the upcoming movie *The Motorcycle Diaries* is based - the moving and at times hilarious account of Che Guevara and Alberto Granado's eight-month tour of South America in 1952. In 1952 Alberto Granado, a young doctor, and his friend Ernesto Guevara, a 23-year-old medical student from a distinguished Buenos Aires family, decided to explore their continent. They set off from Cordoba in Argentina on a Norton 500cc motorbike traveled through Chile, Peru, Colombia, and Venezuela. The duo's adventures vary from the suspenseful (stowing away on a cargo ship, exploring Incan ruins) to the comedic (falling in love, drinking, fighting...) to the serious (volunteering as firemen and at a leper colony). They worked as day laborers along the way - as soccer coaches, medical assistants, and furniture movers. The poverty and exploitation of the native population started the process that was to turn Ernesto - the debonair, fun-

loving student - into Che, the revolutionary who had a profound impact on the history of several nations. Originally published in Spanish in Cuba in 1978, the first English translation was published by Random House UK in 2003. The movie, based on Granado's and Che's diaries, directed by Walter Salles (Central Station, Behind the Sun), was produced by Robert Redford and others. Shown at the Sundance Film Festival, it generated great reviews and a frenzied auction for distribution rights, which was won by Focus Features. Granado, now 82, was a consultant to Salles during the production.

Ripped from his motorcycle by Colombian rebels and robbed of everything, adventure motorcyclist Glen Heggstad journeyed through South America, and the trip became a nightmare as he was forced to march through strange jungles carrying heavy equipment with assault rifles at his back. Even with all the hand-to-hand and sophisticated combat training Heggstad possessed, this chronicle shows that it was his shrewd thinking, precise planning, and a "do-or-die" last act of desperation that eventually secured his freedom. The shocking personal tale of an unimaginable journey through Central and South America, this travelogue details one man's capture by Colombia's rebel National Liberation Army and the eventual realization of his dream to complete his journey.
