The Story of B is a 1996 philosophical novel written by Daniel Quinn and published by Bantam Publishing. It chronicles a young priest's movement away from his religion and toward the environmentalist teachings of an international lecturer known as "B". The Story of B expands upon many of the philosophical ideas introduced in Quinn's 1992 novel Ishmael, and acts as the spiritual successor to both this book and My Ishmael, also written by Quinn.

We want to change our lives."—The Washington Post "Arthur Koestler, in an essay in which he wondered whether mankind would go the way of the dinosaur, formulated what he called the Dinosaur's Prayer: 'Lord, a little more time!' Ishmael does its bit to answer that prayer and may just possibly have bought us all a little more time."—Los Angeles Times

In Beyond Civilization, Daniel Quinn thinks the unthinkable. We all know there's no one right way to build a bicycle, no one right way to design an automobile, no one right way to make a pair of shoes, but we're convinced that there must be only one right way to live -- and the one we have is it, no matter what. Beyond Civilization makes practical sense of the vision of Daniel Quinn's best-selling novel Ishmael. Examining ancient civilizations such as the Maya and the Olmec, as well as modern-day microcosms of alternative living like circus societies, Quinn guides us on a quest for a new model for society, one that is forward-thinking and encourages diversity instead of suppressing it. Beyond Civilization is not about a "New World Order" but a "New Personal World Order" that would allow people to assert control over their own destiny and grant them the freedom to create their own way of life right now -- not in some distant utopian future.

All fiction is character-driven, according to William Bernhardt, despite what you might have heard elsewhere. If your characters don't interest readers, even the most exciting plots will fail. "Action is character," Aristotle wrote, but what does that mean, and how can you use that fundamental principle to create dynamic fiction that will captivate readers? This book explains the relationship between character and plot, and how the perfect melding of the two produces a mesmerizing story. Using examples spanning from The Odyssey to The Da Vinci Code, Bernhardt discusses the art of character creation in a direct and easily comprehended manner. The book also includes exercises designed to help writers apply these ideas to their own work. William Bernhardt is the author of more than fifty novels, including the blockbuster Ben Kincaid series of legal thrillers. Bernhardt is also one of the most sought-after writing instructors in the nation. His programs have educated many authors now published by major houses. He is the only person to have received the Southern Writers Gold Medal Award, the Royden B. Davis Distinguished Author Award (U Penn) and the H. Louise Cobb Distinguished Author Award (OSU), which is given "in recognition of an outstanding body of work that has profoundly influenced the way in which we understand ourselves and American society at large." The Red Sneaker Writing Center is dedicated to helping writers achieve their literary goals. What is a red sneaker writer? A committed writer seeking useful instruction and guidance rather than obfuscation and attitude. Red sneakers get the job done, and so do red sneaker writers, by paying close attention to their art and craft, committing to hard work, and never quitting. Are you a red sneaker writer? If so, this book is for you.

They knew us before we began to walk upright. Shamans called them guardians, mythmakers called them tricksters, pagans called them gods, churchmen called them demons, folklorists called them shape-shifters. They've obligingly taken any role we've assigned them, and, while needing nothing from us, have accepted whatever we thought was their due – love, hate, fear, worship, condemnation, neglect, oblivion. Even in modern times, when their existence is doubted or denied, they continue to extend invitations to those who would travel a different road, a road not found on any of our cultural maps. But now, perceiving us as a threat to life itself, they issue their invitations with a dark purpose of their own. In this dazzling metaphysical thriller, four who put themselves in the hands of these all-but-forgotten Others venture across a sinister American landscape hidden from normal view, finding their way to interlocking destinies of death, terror, transcendental rapture, and shattering enlightenment. From the Trade Paperback edition.
