ETV for Truck - English  
The Electronic Throttling Valve (ETV) on Thermo King trailer units protects fresh loads while saving you time and fuel. ETV also maximises high-ambient temperature operating performance, improving load safety in hot summer weather.

Valves & Vibesorbbers - Thermo King  
It is there to protect the compressor from high loads after the defrost, after a defrost the suction pressure can rise dramatically, this valve will reduce the flow back to the compressor until the pressure is at a resonable level for which the compressor is designed to handle. the valve can be set using a amp meter to measure the compressor amps, the valve should be set to close when the full load amps of the compressor is reached, any pressure below this and the valve will be able to open ...
