New forms of digitalization and digital media technologies are positively and negatively disrupting the free flow of information preservation. These new technologies are revolutionizing the way messages are transmitted and breaking the traditional monopolization of information by well-established institutions. Exploring the Relationship Between Media, Libraries, and Archives provides emerging research on new digital trends in information preservation, origination, and sharing. While highlighting the current shift in information sharing from institutional archives to digital platforms, readers will learn how media, librarians, and archivists reinvent their processes to meet the ever-

progressing needs of users. This book is an ideal resource for librarians, archivists, information preservers, and media professionals aiming to find a balance among the use of media, new digital technologies, libraries, and archives in preserving and furthering information sharing.

The book questions patriarchy and the associated feminine power struggle. It traverses through the characters of the mythological Draupadi of the epic Mahabharat - seeing this epic through the eyes of Draupadi - and a Naxalite girl who was named after this mythological character who broke all typical stereotyped thoughts, convictions and conditioning. This book deals with gender stereotyping and breaking the bondages arising out of conditioning thereof. The detailed

research done is bound to draw the attention of any reader towards the ease with which one accepts the indoctrination of stereotypical views, particularly of the feminine form as a norm. In this mundane world, where the dominating position in all subtleties is held by the MAN-kind, this book lucidly addresses questions related to feminine stereotyping. It also intrigues the reader regarding identities arising out of such conditioning.

Autobiographical reminiscences of a transsexual from Tamil Nadu, India.

The goal of a high quality, cost-effective and accessible health care for patients is achieved through constructing a team-based and patient-centered health care delivery system. The expanded role of pharmacists uplifts them to patient care from dispensing and manufacturing or marketing of drugs. Along with doctors and allied health professionals, pharmacists are increasingly recognized as an integral part of the patient care team. Furthermore, colleges of pharmacy need to revise and up-date their curricula to accommodate the progressively increasing development in

the pharmaceutical education and the evolving new roles of practicing pharmacists in patient care settings. This book focuses on the expanded role of the pharmacists in total patient care including prescribing, dispensing, compounding, administering and monitoring of drugs at home, hospital, community, hospice, critical care, changeover and other care settings. The sector is emerging in both developed and under-developed countries. Overburdened by patient loads and the explosion of new drugs physicians turned to pharmacists more and more for drug information especially within institutional settings. And today 's patient care pharmacists are taking more interests in medication review and reconciliation, patient education and counseling, creating drug therapy regimen

and monitoring compliance. The purpose of this book is to guide the pharmacists in their daily interactions with patients and to ensure collaboration with other health professionals. The contents are mostly based on recently published articles related to patient care, with most recent ideas and activities followed by the patient care pharmacists around the globe. However, a pharmacist implements the care plan in collaboration with other health care professionals and the patient or caregiver. Along with professional guidelines, the book discusses the concepts and best practices of patient interaction, patient rights, and ethical decision-making for the professional pharmacist, apprentice and student. In every chapter, the role of pharmacists in that chapter specific issues are detailed

explicitly so that a professional pharmacist or a student can figure out his or her do ' s and don ' ts in that specific situation. Moreover, further reading references are listed as future recommendations. So, the book is an archive of potential references too. Among so many books about patient care, either doctors ' or nurses ' roles are highlighted. The proposed book highlights the pharmacists ' roles and responsibilities to the most, separated from those of doctors and nurses, with the most recent information obtained from most publications in several journals, books, bulletins, newsletter, magazines etc.

polices, acts and laws in biodiversity conservation intends to follow a “ top down ” approach, where decisions to be enacted upon the local people, their land, biodiversity, forest etc are done at the top level without the local peoples consent, which ultimately leads to conflict. As such, the author through this book advocates for the implementation of two pronged policy i.e., “ bottom up and top down ” approach for a practical and effective biodiversity conservation. While the conservationist, environmentalist and policy makers view the forested lands as the last resort for biodiversity conservation, to the local people it is their only source of livelihood. The author draws attention on the Naga indigenous knowledge system in the light of United Nations Convention on Biological Diversity (UNCBD),

through which they were able to sustainably manage and conserve their biodiversity while obtaining their livelihood from the same. This book will help discover a deeper measure and value of the Naga indigenous knowledge system and will act as a resourceful material to students, researchers, activist and local people in their quest to comprehend the important dynamics of biodiversity conservation and indigenous knowledge. It will also serve as a valuable reference for indigenous peoples and policy makers all around the world who seeks to understand and implement indigenous knowledge systems in broader emerging biodiversity conservation policies and strategies.

destiny is a tumultuous voyage across the Indian Ocean; its purpose, to fight China's vicious nineteenth-century Opium Wars. As for the crew, they are a motley array of sailors and stowaways, coolies and convicts. In a time of colonial upheaval, fate has thrown together a diverse cast of Indians and Westerners, from a bankrupt raja to a widowed tribeswoman, from a mulatto American freedman to a freespirited French orphan. As their old family ties are washed away, they, like their historical counterparts, come to view themselves as jahaj-bhais, or ship-brothers. An unlikely dynasty is born, which will span continents, races, and generations. The vast sweep of this historical adventure spans the lush poppy fields of the Ganges, the rolling high seas, the exotic backstreets of Canton. But it is the
